

Bryson Omullo

Fullstack developer

Male | 30th July, 2001 | Kenya, Nairobi

Citizenship: Kenya

With a wealth of experience, I excel as a fullstack developer, proficient in frontend and backend technologies. My skill set includes UI/UX design, database management, and seamless API integration. I thrive on creating web applications that prioritize user-friendliness. Additionally, I bring valuable expertise in collaborating seamlessly within cross-functional teams, ensuring the delivery of top-notch digital solutions.

Professional Experience

Fullstack Developer

Technify solutions ltd | Remote

Jul 2022 - Jun 2023

As a fullstack developer at Technify Solutions, I contributed to the design and development of responsive web applications, utilizing my expertise in both frontend and backend technologies. I collaborated with cross-functional teams to ensure seamless integration of UI/UX designs, implemented efficient database management, and successfully integrated APIs for enhanced functionality. My role involved problem-solving and effective communication to deliver high-quality digital solutions within project timelines.

fullstack engineer

254news.co.ke

Sep 2021 - May 2022

Developed and maintained website for '254news' blog, responsible for server management and ensuring site scalability. Successfully migrated website from traditional host to cloud web host Linode, improving site performance and stability. Conducted regular testing and troubleshooting to maintain site functionality and resolved issues promptly. Collaborated with cross-functional teams to achieve project objectives and ensure seamless site operation.

Data entry

Kisumu west cdf

Jun 2020 - Nov 2020 | Voluntary

During my time as a voluntary data entry clerk at Kisumu West CDF Office, I meticulously input and managed crucial information into databases. I ensured accuracy and organization while assisting in data verification and record maintenance. My dedication and attention to detail contributed to maintaining an up-to-date and reliable data repository for informed decision-making.
